

# **ONLYOFFICE:** improve your users' document editing experience with third-party plugins

Speaker: Yury Korchagin

What is **ONLYOFFICE** ?

# What is ONLYOFFICE?

Editors for:

1. Text documents,
2. Spreadsheets,
3. Presentations,
4. Fillable forms,
5. PDFs *coming soon*

The collage displays three main interfaces of ONLYOFFICE:

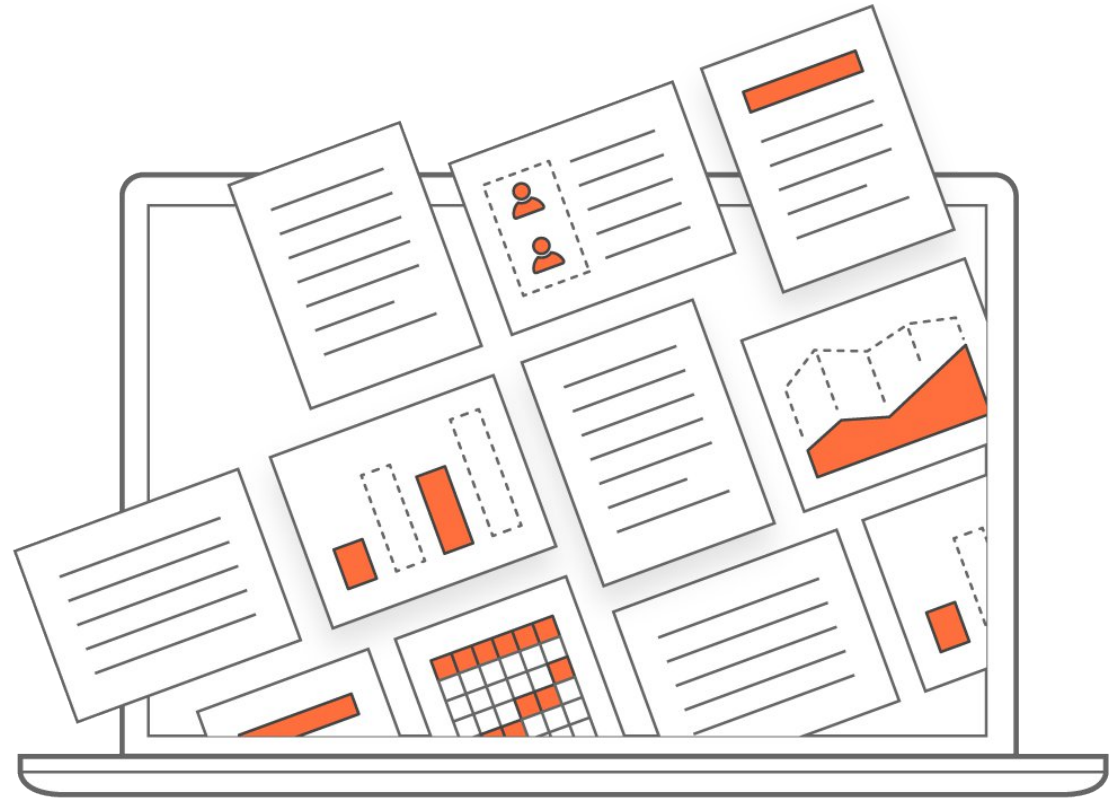

- ONLYOFFICE Document Editor:** Shows a fillable form titled "Application Form Postgraduate Certificate" from the University of Cambridge. It includes fields for personal details, nationality, and birth information. A user named "Henry Milton" is shown editing the form.
- ONLYOFFICE Presentation Editor:** Displays a presentation slide with the text "Powerful doc Online, D".
- ONLYOFFICE Docs:** Shows a document with a table of financial data and charts. The table includes columns for months from January to November and rows for various financial metrics.

	January	February	March	April	May	June	July	August	September	October	November
Company profit	\$ 5 640,00	\$ 7 823,00	\$ 4 586,00	\$ 1 258,00	\$ 3 658,00	\$ 1 456,00	\$ 2 589,00	\$ 2 694,00	\$ 2 468,00	\$ 9 543,00	\$ 5 482,00
Costs of materials	\$ 780,00	\$ 540,00	\$ 360,00	\$ 240,00	\$ 590,00	\$ 640,00	\$ 115,00	\$ 112,00	\$ 980,00	\$ 760,00	\$ 454,00
Overhead costs	\$ 450,00	\$ 650,00	\$ 850,00	\$ 210,00	\$ 320,00	\$ 560,00	\$ 740,00	\$ 150,00	\$ 230,00	\$ 150,00	\$ 564,00
Gross margin	\$ 4 410,00	\$ 6 633,00	\$ 3 376,00	\$ 808,00	\$ 2 748,00	\$ 256,00	\$ 1 734,00	\$ 2 452,00	\$ 1 258,00	\$ 8 633,00	\$ 4 474,00
Cost of sales	\$ 5 025,00	\$ 7 220,00	\$ 3 981,00	\$ 1 023,00	\$ 3 281,00	\$ 656,00	\$ 2 161,00	\$ 2 568,00	\$ 1 983,00	\$ 9 080,00	\$ 4 977,00
Business expense	\$ 1 220,00	\$ 1 190,00	\$ 1 210,00	\$ 450,00	\$ 910,00	\$ 1 200,00	\$ 85,00	\$ 262,00	\$ 1 210,00	\$ 910,00	\$ 1 010,00

OOXML as a core format

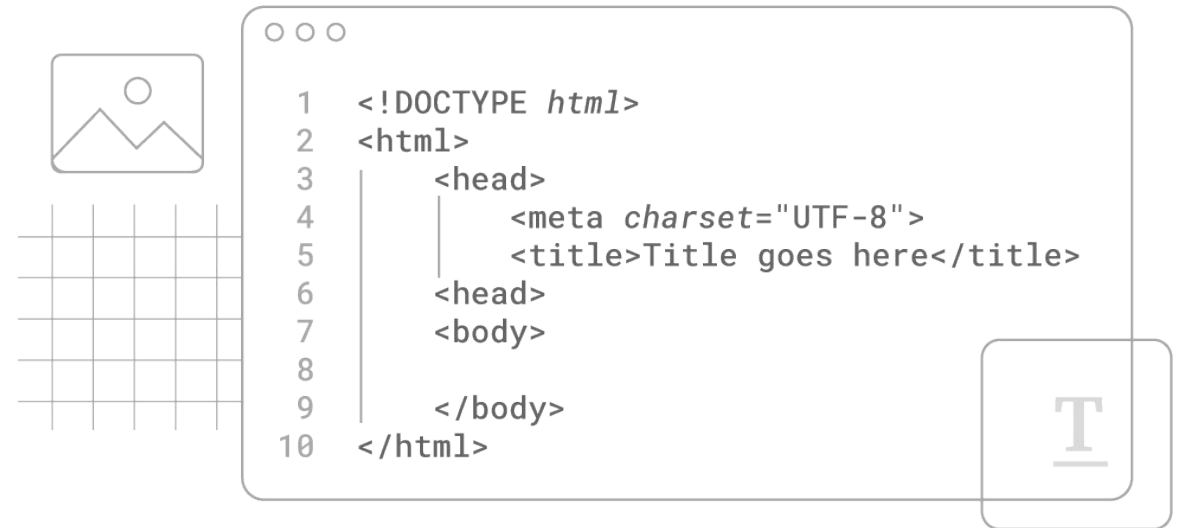

## What is ONLYOFFICE?

HTML5 Canvas as the core technology

1. Browser-independent display of content
2. High formatting quality
3. WYSIWYG - 100% identity
4. Maximum compatibility with MS Office OOXML
5. Advanced tool set
6. Low memory consumption

## What is ONLYOFFICE?

</HTML>

## What is ONLYOFFICE?

**Node.js** for the server-side code  
and JavaScript SDK for client-side  
interaction

```
1 const express = require('express');  
2  
3 const path = require('path') ;  
4  
5 const app = express() ;  
6  
7 app.use(express, static('files '));  
8 app.get('/', (req, res) => {  
9   res.sendFile(path, join(  dirname + '/index.html'))  
10  });  
11 app.listen(3000 , () => console.log('Example app listening on port ${port}!'));
```

## What is ONLYOFFICE?

Client-side performance

Flexible document permissions

Undo / redo features

Collaboration without disruption

Advanced security

- No user data stored on the server
- JSON Web Token
- Configurable cache lifetime
- Watermarking
- End-to-end encryption
- Download/copy restriction
- Password protection

## What is ONLYOFFICE?

ONLYOFFICE Folder permissions.docx Elizabeth Rayan

File Home Insert Layout References Collaboration Plugins

Margins Orientation Size Columns Breaks Align Group Bring Forward Send Backward Wrapping Watermark

- Folder hierarchy:** Parent folders and Subfolders
  - If you do not specify certain permissions on a subfolder, the subfolder inherits the parent folder permissions.
  - If some specific permissions on a subfolder are set, permissions on the subfolder have the higher priority than permissions on its parent folder.
- Profile:** Everyone, Groups, User, Admin
  - User permissions have the higher priority than group permissions (i.e. you can assign permissions to an individual user, no matter which permissions has a group he/she belongs to).
  - There is no group hierarchy, all groups are equal (i.e. one group cannot have priority over another).
- Access rights:** Full Access, Read Only, Access Denied
  - **Access Denied** access rights have the higher priority than **Read Only** access rights.
  - **Read Only** access rights have the higher priority than **Full Access** access rights.
  - If a user belongs to several groups with different permissions on a folder, the user has access rights with the higher priority.

**Examples**

The following examples illustrate the scenarios when a user belongs to several groups with different permissions on a folder.

When a user is trying to access a shared folder, the permissions is checked in accordance with the priority order above:

1. if the current folder has permissions that differ from the parent folder permissions,
2. which profile-based permissions are specified on the current folder,
3. which access rights has the user

## What is ONLYOFFICE?

The **ONLYOFFICE** source code is available on GitHub under AGPL v.3

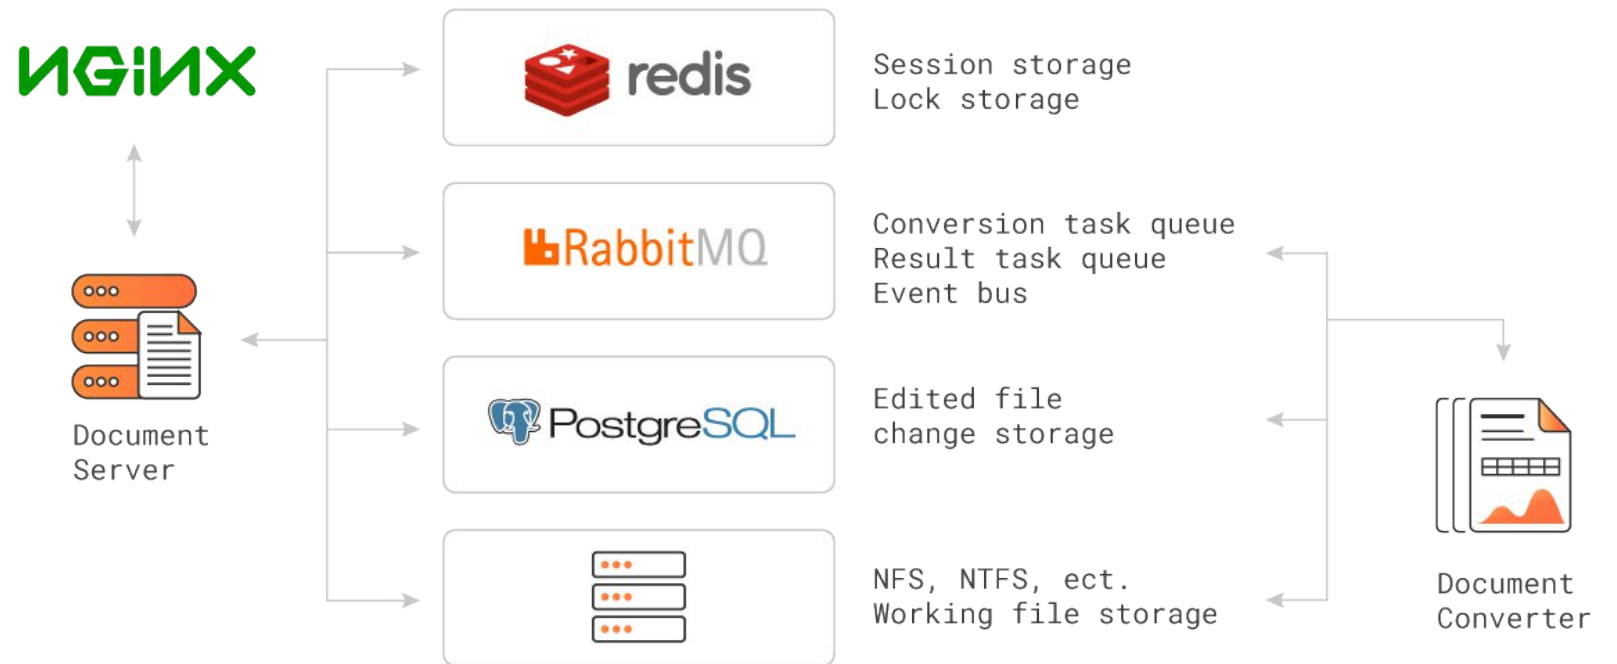

A screenshot of the ONLYOFFICE GitHub profile page. The profile header shows the repository icon, the name 'ONLYOFFICE', and a bio: 'A free and open source office and productivity suite'. It also lists the location '20A-12 Ernesta Birznieka-Upisha street...', website 'http://www.onlyoffice.com', email 'support@onlyoffice.com', and a 'Verified' badge. Below the header, there are statistics for 'Repositories 95', 'Packages', 'People 28', and 'Projects'. The main content area shows 'Pinned repositories' with three items: 'CommunityServer' (Free open source office suite with business productivity tools: document and project management, CRM, mail aggregator. 1.2k stars, 361 forks), 'DesktopEditors' (office suite that combines text, spreadsheet and presentation editors allowing to create, view and edit documents. 166 forks), 'Docker-DocumentServer' (ONLYOFFICE Document Server is an online office suite comprising viewers and editors for texts, spreadsheets and presentations, fully compatible with Office Open XML formats: .docx, .xlsx, .pptx and... 471 stars, 210 forks), 'onlyoffice-nextcloud' (The app which enables the users to edit office documents from Nextcloud using ONLYOFFICE Document Server, allows multiple users to collaborate in real time and to save back those changes to Nextcloud. 104 stars, 32 forks), and 'AppServer' (Platform for creating your own online office. 26 stars, 17 forks). A large QR code is overlaid on the right side of the page, partially covering the 'DesktopEditors' and 'onlyoffice-nextcloud' repository cards.

# What are plugins in ONLYOFFICE?

System / Non-system

The screenshot displays the ONLYOFFICE web interface. The top menu bar includes 'File', 'Home', 'Insert', 'Layout', 'References', 'Collaboration', and 'Plugins'. The 'Plugins' menu is open, showing various plugins like Macros, Apertium, DeepL, Docs to..., Grammm..., Highligh..., Langua..., Mendeley, OCR, Photo E..., Pixabay, Rainbow, Speech, Speech..., Thesaurus, Translator, YouTube, Zoom, and Zotero. The 'Apertium' plugin is selected, and its configuration window is open. The configuration window shows the source language set to 'English' and the target language set to 'Esperanto'. Below the language selection, there is a section for 'Enter text manually' and a description of the plugin: 'Tradukas la elektita tekston en aliaj lingvoj. La kromsoftvaro uzas Google Traduki API. Ĉiuj la lingvoj subtenita de la servoj estas subtenita de la ONLYOFFICE kromsoftvaro. La kromsoftvaro uza Apertium - libera traduko platformo'. There are 'Copy' and 'Insert to document' buttons. The main document area shows the 'Overview' section of the Apertium plugin documentation, which includes the following text: 'Translate the selected text into other languages.', 'The plugin uses Google Translate API. All the languages supported by the service are supported by the ONLYOFFICE plugin.', and 'The plugin uses Apertium - A free/open-source machine translation platform'. Below this is the 'How to use' section with a list of three steps: 1. Select text you want to translate. 2. Open the Plugins tab and press Translator. 3. Select the language you want your text to be translated to. The 'Using your service' section follows, stating: 'You can send translation requests to your service. To do this, you need to change the url address of the `serviceUrl` variable in the `./scripts/apertium.js` file.'

Copy Insert to document

Overview

Translate the selected text into other languages.

The plugin uses Google Translate API. All the languages supported by the service are supported by the ONLYOFFICE plugin.

The plugin uses Apertium - A free/open-source machine translation platform

How to use

1. Select text you want to translate.
2. Open the Plugins tab and press Translator.
3. Select the language you want your text to be translated to.

Using your service

You can send translation requests to your service. To do this, you need to change the url address of the `serviceUrl` variable in the `./scripts/apertium.js` file.

	Parameter 4	35	5-

# What ONLYOFFICE plugins can do

Integrate AI to :

- Generate text
- Find information
- Build code
- Translate text
- Summarize and structure text

The screenshot shows the ONLYOFFICE interface with a document titled "EN Sample Document.docx". The top menu bar includes File, Home, Insert, Layout, References, Collaboration, Protection, View, and Plugins. The Plugins menu is open, showing various tools like Plugin Manager, Macros, EasyBib, WordPress, Highlight code, Mendeley, OCR, Photo Editor, Speech, Thesaurus, Translator, YouTube, Zotero, and ChatGPT.

The ChatGPT sidebar is active, showing a chat window with the prompt "Explain the Big Bang Theory in simple terms". The sidebar also displays advanced settings for the model, including "text-davinci-003", "Maximum length" (466), "Temperature" (0), "Top P" (1), and "Stop sequences".

The main document content includes a header with "YOUR COMPANY" and contact information, a main heading "An eye-catching heading means a lot", a subheading "An informative subheading also does", and a paragraph of text. A table titled "YOUR TABLE" is also present, showing data for "Text description" across four parameters.

YOUR TABLE			
Text description

# Speech Input

Use **Speech Input** to convert speech to text:

1. Select Speech Input on the Plugins tab
2. Allow access to your microphone
3. Set the language
4. Start dictating the text

The screenshot shows the ONLYOFFICE application interface with the 'Speech' plugin settings dialog box open. The dialog box has a title bar 'Speech' and a close button 'X'. It contains a dropdown menu set to 'Auto', a 'Rate' slider, and a 'Pitch' slider set to '1'. An 'OK' button is at the bottom. The background shows a document editor with a 'YOUR COMPANY' header, a table, and a section titled 'ADD TABLES'.

Page 1 of 1 | Word count | English (United States) | Zoom 100%

# Zoom

Use **Zoom** to make audio and video calls:

1. Select Zoom on the Plugins tab
2. Authorize with Zoom API
3. Create, schedule or join a meeting
4. Enter a call inside the plugin interface with all essential Zoom tools and settings

The screenshot shows the ONLYOFFICE application interface with a Zoom plugin overlay. The Zoom window displays a video call with a participant named Mike. The background document is a Word document titled "Roundtable submission.docx" with the following content:

**A SAMPLE DOCUMENT FOR USE IN SUBMITTING TO  
8TH INTERNATIONAL MESHING ROUNDTABLE**

Edward T. Jones<sup>1</sup>, Alfred P. Smith<sup>2</sup>, Henry R. Anderson<sup>2</sup>

<sup>1</sup>Mosh Generation University, MyTown, CA., U.S.A. myemail@university.edu

<sup>2</sup>ABC Company, MyTown, CA., U.S.A. myemail@abc.com

**ABSTRACT**

This is the abstract. The font should be nine (9) point Times Roman and should be single column, justified, with 12 point spacing between the affiliation and the Abstract heading. The abstract should give a clear, concise, objective, scope, and results of the paper so that readers may determine whether the full text will be of interest to them. The abstract should attempt to condense the whole subject matter into a few words for quick reference. The abstract should be a list of keywords, which will serve to identify the main topics covered in the paper. The number of words in the abstract should not exceed 150.

**Keywords:** mesh generation, anisotropy, computational geometry, quadrilateral

**1. INTRODUCTION**

Page 1 of 3 | Word count | English (United States)

Use **ChatGPT** to generate answers:

1. Select ChatGPT on the Plugins tab
2. Log in with OpenAI API data
3. Ask questions, translate texts, request chat to generate code and HTML objects, etc.
